WASHINGTON, April 6 .- On motion of Senator Cockred, the vote by which the bill to facilitate the negotiation of bills of lading and other commercial instruments, and to punish fraud therein was indefinitely postponed yesterday was reconsidered and the bill placed on the calendar.

Blatant Blaine.

From the New York Nation. We are unable to recall any case be-sides Mr. Blaine's in which a conspicuous politician has deliberately taken the nurturing of domestic hatred as his the nurturing of domestic hatred as his sole mission in the politics of his country. For, unhappily, Mr. Blaine's sole mission it must be considered. He is striving hard for the Presidency, and has for many years occupied prominent positions in both branches of the national Legislature, and yet we know of no opinion looking to the constructive work of government which he has mo opinion looking to the constructive work of government which he has preached or with which he is identified. We know of no bill affecting any great public interest which he has introduced, debated instructively, or amended. We do not know, and we do not believe any hody else knows what his views are anybody else knows, what his views are about any of the problems, such as currency, taxation, or administration, now pending or impending. On none of these subjects has he rendered any aid in forming or molding public opinion. None of his friends, in fact, make any claims of this kind for him. No account of his services in this field has been published or promised. No speech ef his or any of them has been reprinted, is ever recalled or quoted. The one thing said for him, and it is said frequently in the has been reprinted, quently, is that he is "magnetic"-or, in other words, has a taking mannerwhich, when one thinks it over seriously, is probably the oddest qualification (standing, as it does, alone) for the chief executive office of the busiest and most p werful Democratic State in the world. It might furnish an outfit for a consti-

tutional monarch; but to ask nothing else of an American President, at a time which his supporters say is "full of peril," has an air of thinly-disguised ridicule of the office he seeks. If those who are now trying to bring the influence of sober-minded and reflective people to bear on politics can succeed even in beginning to throw discredit on been describing, to force men who make public life their pursuit to look to the Presidency as the reward, in part, at least, of industry and zeal in the service of the government, or in the formation and direction of the great currents of popular thought of which the government is, or ought to be, the expression, they will achieve a thoroughly practical piece of reform.

OUR CHARLOTTE LETTER. MECKLENBURG CURRENT NEWS

The Municipal Blection-Some Few Political scraps-A Merchant in Trouble-The Mining Boom and Other News.

From our Charlotte Correspondent. CHARLOTTE, Apr.l 5, 1880.—The very old What's-his name is to play in re gard to our municipal election, which comes off on the 3d prex. I suppose the case has never been paralleled in any other election or canvass, for are not politicians generally modest and unaspiring, and do not the people have to thrust offices upon them? And, would you think it? Charlotte wants one Mayor, and it turns out that a dozen or more aspiring citizens (would be martyrs) are not only willing, but anxious to serve their city in that capacity. The race most certainly will be exciting, as each candidate has his quota of enthusiastic supporters and zealous canvassers, and the candidates themselves have gone into it with a zeal that bids tair to make the necessarily short campaign a very hot one. Among the mos prominently mentioned for the may oralty we may mention Capt. F. S. De Wolfe, Mr. F. J. Osborne, the present incumbent, Col. Chas. R. Jones, Col. Robt. Oates and Col. Frank Coxe, each

Some gentleman, publishing a card nominating Mr. Osborne for re-election, got himself into hot water by enumerating as one of the reasons why enumerating as one of the reasons why
the people should elect Mr. Osborne,
that he was to the "manor born." A
writer signing himself "Junius," came
out in next day's Observer in a very
well written, sensible article, not only
stating that nearly all of the most
prominent business, professional,
newspaper and railroad men of this
city, came from different portions of
this county, State and country, but
enumerating them, and rolling Mr.
Osborne's nominator over the coals for Osborne's nominator over the coals for attempting to introduce such a precedent as making it a higher recommendation and eligibility for an office that the candidate was Charlotte born and bred, than that he is a man of integrity, enterprise, energy and ability.

naving a goodly constituency backing

POLITICAL SCRAPS.

Since our last we have heard some thing more about the "dark horse." A prominent gentleman remarked to us that be had considered Dr. Worth, that that he had considered Dr. Worth, that dusky quadruped until he saw from our letter that the Worth "boom" had been started by the News' Milledgeville correspondent. That he considered the Doctor the strongest candidate in the field, and that though he had dabbled in no political policies, attended no Methodist conferences nor camp-meetings, delivered no addresses at college commencements and society annivercommencements and society anniversaries, still his integrity and ability, his unspotted record, both in private and public life, in fact his worth would work up for him as strong a constituntioned manoeu vree would obtain for those candidates indulging in them. And we have no doubt of that ourselves, for this is not the opinion of this gentleman alone, but of many others.

Another gendeman remarked to us

that he considered Congressman Scales the "Dark horse," and thought that in a canvass for nomination which promsed such spiritedness as the present one, that it was time the above gentle man had shaken off his "sable vest-ments," and come out into the field. that he thought Mr. Scales would be strong candidate, and would make a good run, if he was not the winner. The last issue of the Gastonia Ga zette compliments our General Assem-bly for the amount of important business transacted at its extra session, and for its promptness in conforming to the wish of the people in selling the road. It also compliments Governor Jarvis very highly, and strongly implies that ne is Gaston county's choice. But from a communication in the Concord Register, it does not seem that the people of Cabarrus are as equally well pleased with the action of our representatives as the noble Gastonians. The writer says that the bill introduced by Capt. Orchard, entitled "An act to empower the Board of Commissioners of County to settle with the sheriff of Cabarrus county by compromise, all outstanding unsettled business for the years 1871, '72, '73, '74, '75, '76 and '77,' should read, "An act for the relief of W. H. Orchard, and other sureties."

He pitches into the Captain rather lively and spiritedly, and the inference we draw, this being election year, is, that the writer will certainly be a Col. Wm. Johnston is before the people of this Congressisnal District, and has entertained them on several occanonors. Several other gentlemen are soon expected in the field, all strong

and popular men.
In addition to Col. Jones, of the Observer, being nominated for Mayor of Charlotte, several journals of surrounding towns are putting him up as a Congressional candidate, and one goes so far as to say: "Somebody has named Col. Chas. R. Jones for Mayor of Charlotte. The Colonel, in a circular, tells his friends he don't want the office, but will not discovere the colone, in the colone, but will not disappoint them if they choose to elect him. We hope that no such thing will be done. Col. Jones is worthy of higher honor than to be mayor, and we think probably Con-gressional honors await him, and they are not far distant, either.

Colonel W. J. Best, of the Western North Carolina Railroad, was in Char-lotte last week, and excited a good deal The mining "boom" certainly conrols this section at present. Mecklenburg and surrounding counties are flooded with Northern capitalists and

speculating prospectors.
Charlotte is to have a variety theatre, beer and billiard saloon combined this fall. The house has already been engaged and the boys are in anticipation

of many pleasant evenings.

Colouel John G. Clark resigned the presidency of Charlotte, Columbia & Augusta Railroad on 1st inst.

To-morrow (Tuesday, 6th) is the day for Annual Parade of our Fire Department, and if we have a pretty day, the ladies and children will be out in force to view the "boys in rad"? to view the "boys in red."
Governor Jarvis has been petitioned to commute the sentence of Henry Horne, the notorious thief and burglar

convicted at the last term of Meckien-burg court, and sentenced to be hung. We learn that some sections of West ern North Carolina were visited by a killing frost on the 31st ult.

The country around Charlotte looks well, some of our farmers having begun planting corn and cotton. There is an appearance of agricultural prosperity which it is truly pleasant to behold. Yesterday was a beautiful day, and communion services were held in all of our churches. We cannot recall to our mind having seen anything but some

impression left upon us by that imposing array was so powerful.

Since the Legislature responded to the call for an appropriation, the prospects for the King's Mountain Centennial Celebration are very encouraging, and it looks like we are going to have a big thing.

He stood by her side commenting on some article he was purchasing, when suddenly he asked her if something he had in his hand did not belong to her, saying he saw a 15th amendment drop it. Shemmediately discovered her loss, and, Mr. B. going out in pursuit of the arkey, did not return at all, whereupon she sued out a warrant for him. He was bound over to appear at next term of court.

The cooking school is all the rage among the fashionable circles, a majority of the young ladies of the city taking lessons. The News should come up and go the rounds among its friends. it would soon become gorged with beef a la mode, deviled ham, boneless turkey, skinned and boneless fish, innumerable coquettes, and oceans of puddings, custards, cakes and jellies. Most of the railroads leading into Charlotte changed schedule on yesterlay. We now have only one train daily

from Atlanta. The Charlotte police force consists of eight able-bodied men, averaging 180 pounds, who protect our city, four at a time, each four on duty twelve hours at a time except once a month, when each is on twenty-four hours, and once every four days two on eighteen hours each four days two on eighteen hours each. They receive \$40 per month seven summer months, and \$50 per month five winter months. This is, reckoning Charlotte at 7,000 inhabitants, one watchman to 1,750 souls, which, considering at least one per cent. to be rogues, is certainly most inadequate. The force certainly deserves great credit for protecting the city as it does, but it should be increased and the eight-hour rule adopted.

dorted.
Caparrus is cackling over a hen that lays Easter eggs. They have never discovered her, but invariably find the egg in the nest It she lays them already cooked, as well as dyed, she is certainly a treasure, and Cabarrus is right to crow. We have discovered the most formi

dable credit scare-crow, we suppose, in existence. It adores the shelves be hind the counter of a Charlotte estab-lishment. It most certainly is laconing and exceedingly suggestive. We recommen i it to the merchants of North Carolina's capital as a most excellent thing to make the credit-seeker feel as if a bucket of ice water had been poured down his back. The larger the type the better. Here it is:

To trust is to bust, To bust is h-; No trust is no bust. No bust, no -!

The rhyme is perfect. Can you con

ceive of any word rhyming better with "bust than "bust," and the second and fourth equally as good?

Carteret County. MOREHEAD CITY, April 5.—The weather fot the last few days back has been remarkably cool. We were fear-ful it would damage our truck farms

and bright as May.

A spirit of progress seems to prevail here. Our merchants and mechanics are energetic, and can always be found ondition, and has over one hundred

scholers.

In addition to the building of the hotel at this place, there are quite a num-ber of dwelling houses being erected in different parts of the tewn. The building of the hotel is progressing rapidly; it will be enclosed in a few days. The painters are putting on the first coat of paint, which gives it a better appearance. The building of this fine summer resort will be of great benefit to our community. It will attract among abroad who otherwise would never have heard of the magnificent advanhave heard of the magnificent advantages and facilities of the place as a shipping port, and be the mean thereby of enlisting energy and capital in the building of a commercial city tere. On account of the proximit of the Gulf stream, some forty miles, the climate is so admirable throughout all seasons of the year that Moreh ad City, with her good hotel accommendations, must become a popular winter resort for Northern people that usually make their way to Florida.

We understand that he ma proposition to the Directors to lease the Atlantic & North Carolina Railroad for a number of years. They could not decide upon the matter, and called a special meeting of the Stockholders on the 29th inst. It is generally under-stood that the Atlantic & North Carolina Railroad is in a more flourishing condition than it has been since the war. More treights have been shipped over this road for the interior towns than has been since immediately after the war. There were 1,447 tone of ferthe war. There were 1,447 tone of let-tilizers shipped from Morehead City alone during the month of Moreh to politis on the North Carolina, and At-iantic & Charlotte Air-Line Ballroad, which have heretofore reached their destination via the Seaboard & Roancke and Raleigh & Gaston Railroads. That which is said of fertilizers can be said as well and truthfully of all other Classes of freight.

Quite a large crowd assembled at the Macon House on the evening of April 1st, to witness the mcrriage ceremonies

1st, to witness the mcrriage ceremonies of Mr. Eugene D. Arthur and Miss Gurtie Wiggins, both of Mcrehead City; Mr. James F. Briuson, of Craven county, and Miss Ella F. Perry, also of this place. Both couple appeared on the floor at once in splendor. After the marriage ceremonies were over we retired to the dining room. The table retired to the dining room. The table was certainly grand in its appearance, everything was done up in excellent style (by Mrs. Wiggins, who seems to know exactly how to prepare for auch an occasion) good things in abundance, and all seemed to enjoy themselves finely.

WOMAN'S ENERGY.

N ADDITION OF TRUE HEROISM TO DAKOTA'S HISTORY.

What a Woman Can Do-The Result of a Thorough Determination to Succeed-Its Following.

Mrs. Elizabeth Bryant, of Sioux Falls, deserved an honorable niche in the history of Dakota. True heroism is not by any means confined to scenes of excitement and danger. These is much of the heroic in one who dares to suffer solitude and isolation when there natural and proper sphere is in she midst of civilization. Mrs. Bryant it a modest, industrious womanly woman, engaged in the business of Millinery and dr. semaking at Sioux Falls. But she has a good brave heart, and the resolution and desire to own a share of the broad acres of Dakota Territory. To gratify this laudable ambition, she rode out upon the prairies one day last year and selected her a choice pre-emption claim of 160 acres, in Hanson county, D. T., about 45 miles distant from 3i-D. T., about 45 miles distant from 3i-oux Falls. Once a month for seven months, to comply with the letter of law, she rode across the prairie, 45 miles, to sleep upon her claim, return ing the same distance next day to her regular place of business at Sioux Falls, and at the end of seven months, having fulfilled the legal requirements, she "proved up" and is now the owner of an excellent farm, which long may sho live to enjoy. Mrs. Bryant, instead of theorizing upon womans' rights theorizing upon womans' rights, practically, assumes the right which appertains to every lady over 21 who is single or the head of a family. She is the glory of her sex; and her selfreliant and courageous course may well serve as a bright example of "what a woman can do" voman can do.

It is moonlight on the hill. From out the trees a gentle zephyr creeps to rob the hyacinth of its perfumed breath, and adown the garden walk the whippoorwill lends his monotone of sadness unto the balmy night. Sleep, with brooding wings, sits silent o'er the scene. But hark! it is the tinkling guitar strummed by the lonely Augusta. He comes. Beneath the vine-clad window in the ghostly gloaming he pauses, and up the flower-trellised wall he shoots a melancholy tenor fraught with the passienate inquiry "Must I leave thee here alone?" No answer returns save the haunting echo and the low clicking of a distant door. The scene changes. It is the back yard tableaux. A white-robed old man bends above a chained dog and soothes his too eager spirit as he loosens the collar. A low voice says "S-c-ceck him, Bull—take a short cut round the rose-bush." A flash—and the old man is alone. The take a short cut round the rose-bush." A flash—and the old man is alone. The clatter of a fallen guitar comes from the front; a sound like the rush of a steeple-chase nearing a hedge is borne back, and neck-and-neck two figures cross the picket fence to disappear down the dim perspective of the deserted street. Then the old man meeta Bull as he returns on the outer walk, and removes in a discouraged manner a dark object from his foaming mouth, while the animal retires to his kennel in silence. The door opens and shuts upon the The door opens and shuts upon the white-robed form, and all is still again. CAMPRELL.

CINCINNATI, OHIO, April 6.—Only one-third of the city voting precincts have been heard from, but the indications are that the Republicans elect Eshelby City Comptroller, over Hoffman, Democrat, and a majority of twelve members of the Board of Education eation. There was a light vote polled i Columbus City. The Councils will be Republican by six majority. In To-ledo the Nationals are defeated, though the party lines were not strictly drawn. Disturbances are reported at the polls at Shelbyville and Scottsville, Ind., growing out of a nezro voting at the latter place. The County Treasurer

J Q A Haddaway, Esq., of "Episco-pal Methodist," Baltimore, Md., writes: "With much pleasure I testify to the good effects of Dr. Bull's Cough Syrup in my family. Have used it in many cases, and in each instance the result was entirely satisfactory. Price 25 cts. bottle.

The Product of the Prolonged Ten mittee on Washburn.

WASHINGTON, April 4.- The latest

Special to the Philadelphia Record.

Washington sensation was started by the publication on Saturday of charges affecting the integrity of Chairman Springer, of the House Elections Committee, in connection with the Donnelly-Washburn case. Mr. Springer pronounces these charges to be the most wicked and malicious falsehoods that ever appeared in a newspaper, and Mr. Manning, who was supposed to be responsible for them, disclaims any part in their publication. After the reading of the journal to-morrow morning, Mr. Springer will call the attention of the House to the publication, and demand a committee of investigation. Mr. Manning will make a personal explanation, denying the authorsh p of the charges, and the matter will thus be brought before the House for its action. Mr. Manning having solemnly denied to his friends that he furnished the aleto his friends that he furnished the alegations against Springer, suspicion natually rests on Donuelly, and his case has been prejudiced by the appearance of the article. Donnelly is mad because the committee reported against him, and is especially indignant at Springer. The letter in which \$5,000 is offered to Mrs. Springer for Springer's yote in favor of Washburn, was received as stated, but it was an anonymous communication, and could have mous communication, and could have been sent by Donnelly or his friends as easily as by Washburn, and there is nothing to show that it was not. The real trouble seems to be that when the Donnelly-Washburn case came before the Elections Committee it was referred to the sub-committee it was refer-red to the sub-committee, of which Manning was chairman. The sub-committee heard the arguments of ecunsel and examined the testimony, counsel and examined the testimony, and agreed to report in favor of seating Donnelly, although the face of the returns showed a majority of over three thousand against Donnelly. Mr. Manning claims that he had assurances from Springer that he would austain his report. While the case has been pending Springer has made several visits to New York, and it is said that on these occasions he called on Tilden, who told him it would not do to seat Donnelly.

LATER.—Springer and his friends now cfaim that they are able to trace to

now cfaim that they are able to trace to Donnelly and his friends the anonymous letter offering Springer \$5,000 to vote for Washburn. It is also stated that, while Donnelly gave the published article to the Washington Post, charging Springer with corruption in charging Springer with corruption in the Donnelly-Washburn case, Man-ning gave the same thing to the corres-pondent of the New York Herald and the Museouri Republican, conditioned that it should not appear before Mon-

Muchly Married. Philladelphia Times

St. Louis is boasting of a girl sixteen years old who has been taken in charge the law for having three husbands. years old who has been taken in charge
by the law for having three husbands.

Men are so scarce these days that a
whole lot of girls twice sixteen and upward can't for the life of them think
where three husbands could be found.

St. Louis, however, is making the best
possible use of the case to excite the
envy of Chicago, but the latter city
points calmly to its prize in the
laye turned up since the last reserand feels as if it can afford to smile. In
social affairs of this kind Chicago has
some exclusive privileges.

None receive so much benefit, and none are so profoundly grateul and show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver. constant or periodical sick headsches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency, are all ready removed by these Bitters.

The Black Hills Trade. The new short route open to Black

The new short route open to Black fills travel and freight by the early construction the present summer of the Chicago, Milwaukee & St. Paul Railway, to a point on the White river, fifty miles beyond the Missouri, virtually settles the transporation problem of that region. There are now two all-the-year routes to the Hills; that via the Northern Pacific to Bismark, and the Union Pacific to Cheyenne or Sidney. By the former, the railroad transportation from Chicago is nearly 900 miles, and 220 miles of wagon transportation. By the Sidney or Cheyenne route there is 1,000 miles of railroad and over 300 miles of wagon transportation. By 1,000 miles of railroad and over 300 miles of wagon transportation. By the new route, about to be opened by the Chicago, Milwaukee & St. Paul, the rail and transportation will be about 700 miles, and the wagon travel about 160 miles. Black Hills freight shipped by the latter route will go through to the end of the road under one management without delay, and the shortness of the wagon travel will enable Black Hills increhants to calculate with some degrees of certainty, the time between Hills merchants to calculate with some degree of certainty the time between the ordering and their receival of goods.

WEDNESDAY, APRIL 7, 1880.

GEO. C JORDAN, Editor and Propr NORTH Georgia suffered muchly from the late cyclone. Railroad lines were washed away, houses blown down, and several deaths recorded.

According to a revised table showing the votes of the States at Chicago Gen. Grant's friends claim four hundred and ten votes for him, thirty more than what is necessary for a choice.

THE stupendous sum of \$954,154.41 has been paid to trandulent pensioners. These figures are admitted by the Commissioner of Pensions. Somebody has been remiss in doing their duty, it

Colonel Armfield has introduced a bill in Congress to abolish the tax on spirits distilled from apples, peaches, grapes and pears, and to reduce the tax on spirits distilled from grain or mixtures thereof to twenty-five cents per gallon, and providing that producers of leaf tobacco may sell the same in quantities of not more than ten pounds at a time without license.

THE proprietor of the Chicago Times has revolted against the monopoly rule by closing a paper contract with a Montreal firm. He finds it cheaper, or at at any rate preferable, to pay freight and duties on Canadian paper rather than submit to the prices charged by the combination which holds the American market by the throat.

A MOVEMENT is on foot to bolt the nomination, should General Grant become the Republican nominee for President. The matter has progressed so far as to make such a result certain, it is said. The leading States in the movement is Massachusetts, New York and Missouri. Let the work go bravely on, we say.

It is said that the hotel proprietors of Cincinnati have arranged a schedule of prices to be enforced during the sitting of the coming Democratic Convention. Written applications have revealed the fact of their intention to charge excessive prices. Friends of the various candidates have closed in with all the first-class hotels. This leaves the smaller hotels to make the profits.

ALASKA's revenue the present fiscal year amounted to \$2,586, for which it cost \$10,912 to collect. It does not seem to be a paying investment. The Alaska Commercial Company monopolizes the seal skin business and pockets all the money. Surely this country is one of monopolies. They are the crying curse of our land. We are opposed to all combinations which have a disposition to fetter business and array one class against the other.

EDGECOMBE County is one of the most modest in the State, We are reliably informed that only four persons have applied for the position of enumerator of census for that county. Supervisor Cardwell is much troubled about finding appointees, and will, we understand, be forced to go to Tarboro to hunt up men to appoint. Nearly seventeen hundred applications have been made from the other counties in Mr. Cardwell's district.

A BILL has been introduced in Congress forbidding any member of the House or Senate from receiving pay while absent, unless he can prove that he was absent on account of the sickness of himself or family. There is too much absenteeism, and it is a growing evil. We think this action is both right and proper. We believe in every member's keeping in ranks. If a member of Congress can't remain at his post, there are those whom we can elect that will.

An editor of a Oswego, N. Y., paper has taken the trouble to address a circular letter to all the Democratic papers of the State, asking their cpinion as to the advisability of renominating Tilden. Seventy replies were received from papers published in fifty counties. Fifty-seven recorded themselves as unalterably opposed to Tilden and expressed the opinion that he could not carry the State, and if nominated a good many Democrats would not vote for him. The replies received did not include any of the metropolitan papers, the inquiry being directed to journals outside New York city and Brooklyn.

WE publish the following, taken from an exchange:

an exchange;
A "new" cereal, said to be more nutritions than either corn, oats or rye, is finding much favor in Western Kansas and New Mexico. It is called Egyptian corn or pampas rice, and was originally brought from Southern Russia. Thus far it has been unaffected by drought, worms, grasshoppers and pests, and it can be cultivated with less care than almost any other grain. There is doubtless some exaggeration in the accounts given of this cereal, but such a mass of favorable testimony from such a variety favorable testimony from such a variety of sources as this candidate for public favor inspires could hardly be com-manded by an article of merely ordinary

Some of our exchanges tell us that consumers are predicting one of the heaviest cotton crops ever raised in the South, for the present year. They estimate the crop at 8,000,000 bales! This is an enormous calculation; unreasonable in the extreme. The Macon Telegraph and Messenger, in speaking of the coming cotton crop, very wisely

"We trust, in the interests of planters themselves, they will go on without excitement, to cultivate a crop they can manage with ease and comfort, and that it will embrace an ample supply of food products. No man can make any-thing farming on speculative principles. A steady-going, sound plantation economy will realize the full benefits of good prices, while a crazy and excited effort to make a ten-strike will probably forfeit them all. What became of all the money from high priced cottton just after the war?"

OUR risabilities were considerably excited over reading the following extract from a speech delivered before the American Fish Cultural Association, lately in session in New York, by Seth Green, the veteran fish vender.

"One thing the writer was greatly surprised at, was that farmers did not give more attention to raising frega.

If a farmer made a small pond, twenty to thirty feet square and from four to five feet deep, and surrounded with a tight board fence, he could raise enough to supply his own table and have some left over to sell. The farmer who lear-ed how to raise from on a large scale, could make more money than by his agricultural products."

"Terrapin farming" is carried on very successfully in some of our Eastern counties. They raise what is called the "diamond-backs" for which twelve dollars per dozen is readily obtained in the Philadelphia market.

WE clip the following from the Charleston News and Courier, showing a new fast route to New York ; also the connection between Charleston and

Charlotte: "The close connection now made at Columbia by the South Carolina and Charlotte and Columbia Railroads is the work of the last named road, which, with great effort, has induced the Northern lines to make the change of time which perfects the through con-nections. We have so often urged that the connection was important and necessary that we are glad to be able to give the Charlotte Road the credit for

what it has done. "Leaving Augusta an hour later than formerly, the trains on the Charlotte, Columbia and Augusta Railroad con-nect with the South Carolina Railroad at Columbia, and going on connect with the Northern trains at Charlotte, offer ing a rouge from Charleston to New York, either via the Richmond and Danville Railroad or via the Virginia Midland. The time by this route is as quick, less about twenty-five minutes, is the route by Florence and Wilming tor. Charleston is also now connected daily and quickly with the important counties of Fairfield, Chester, York, Laneaster, &c., from which this city has hitherto been cut off."

A special dispatch to the Philadelphia Times from New York says:

Comment is created in political circles here to-day over the fact that in Gover-nor Horatio Seymour's county of Oneida, in which were held yesterday the primaries for the selection of delegates o the State Democratic Convention, the issue was between Seymour and Tilden. Last year it was Tilden and anti-Tilden, and the Tilden men won by a large majority. This time, however, the mour men won. In one ward in Utica resolutions were adopted instructing the delegates to use all honorable means or securing Seymour's nomination n another the ticket was headed: For President, Horatio Seymour, and this in the district in which Horatio Seymour's brother takes an active part in politics. It is thought here that these acts indicate that Seymour's repeated declinations are not sincere, and that with the proper encouragement he might be induced to become a candidate. It is known that the anti-Tilden element of the party in the State has been in active consultation with Sevmonr's friends, and Seymour's name has been mentioned in all the Tammany gatherings where there have been referes to candidates.

WE deeply sympathize with the people who live on the low lands of the Mississippi and its tributaries. They have been the victims of the destroying waters of the Father of Waters every year since the war. The overflow bas ruined some of the finest lands the sun ever shown on. It has brought beggary and want to many a happy household. In speaking of the recent crevasse, the New Orleans Democrat

"In the straightened condition of the State's finances it is manifestly impo sible for the levees to be maintained as they should be, nor can there ever be such ample seeuri y given to the ripa-rian owners of the rich and productive lands on the Mississippi as they are en-titled to until the levees are taken charge of by the general government, to which they as naturally belong as do the breakwaters of the Northern and Western harbors, or the many other works which are for the interest of ommerce. The levees are essentially commercial appliances, and are absolutely necessary to the maintenance of a deep and navigable channel in the great national highway. That this State, situated near the mouth of the river, should be perpetually menaced by the floods which annually pour down upon us from the rivers of the West and Northwest is clearly unjust, and no government that permits such gross injustice to one section of its peo-ple can hope to enjoy the confidence or respect of those to whom it fails to ac-cord such protection of their life and property as they have a right to ex-

Seven Springs trou and Alum Mass This most excellent remedy is becoming more popular with our people every day. REMEDISE

Have Achieved the most noted suc cess of any Medicines of Modern Times.

Messrs. Weeks & Potter have never doubted the specific properties of Onticura, Cuticura Besolvent, and Cuticura Soap, for the speedy, permanent, and economical cure of Humors of the Bl cd, Skin and Scalp. They are however, astonished at their universal success; for it was to be expected that in the hands of some they would fail solely from spasmould or ignorant use of them.

They are enabled to say without fear of c n radiction that no remedies ever achi ved in the short space of one year the namer of wonderful c res performed by the Chicura Remedies.

Messrs Weeks & Potter: Gentlemen,—I feel it a duty to inform you, and through you all who are interested to know the fact, that a most disagre-able and obstinate case sait Rheum or Eczema, which has been under my personal observation from its flist appearance to the present time,—about ten (10) cars,—covering the greater portion of the patient's body and limbs with its peculiar irritating and itching scab, and to which all the known methods of treating uch disease had been applied without benefit, has completely disappear ed, icaving a clean and malthy skin, un der a few days of profuse application of Cuticus. der B few days of plotted.

Everything I ate distressed me. I got reduced from 1 y to 132 pounds. At last I tried the Resolvent and it helpeu me right off, and on one bottle I gained five and one half pounds. It is doing the business, and I am going for it strong. JOHN H. ROY 414 Wabash Ave., Chicago, 1-1., Nov. 15, 1878. NOTE.-Cuticura is admirable assisted in

Note.—Cuticura is admirable assisted in cases of extreme physical weakness, or when the virus of scrofula is known to lurk in the system, by the internal use of the Cuticura Resolvent, without doubt the most powerful blood purifier and liver stimulant in the world.

'tuticura Soap is an elegant toilet and medicinal assistant to Cuticura in the treatment of all external ailments. For chapped hands, rough s in and tan, sunburn, and the lesser skin troubles, it is indispensable; as a soap for the toilet, the nursery ind bath it is the most elegant, refreshing, and healing before the public.

These great remedies succeed where all others heretofore in use fail because they possess new and eriginal properties never before successfully combined in medicine.
